***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4,12, are rejected under 35 U.S.C. 102(b) as being anticipated by Benoist (5,779,703).

With respect to claim 1, Benoist discloses a fixation device comprising a frame (61) including an arcuate portion (64) including an arcuate inner surface and a first plurality of holes (63) extending radially from a center of the arcuate inner surface for holding the first plurality of pins (22) to extend inward radially toward the center of the arcuate inner surface; and an elongated portion (60) extending in a first direction from the arcuate portion, including an inner surface and a second plurality of holes (63) for holding the second plurality of pins (22) to extend inward from the inner surface of the elongated portion; as set forth in column 4, lines 25-67, column 5, lines 1-67; and as best seen Fig.15.

With respect to claims 2-4, Benoist discloses all the limitations, as set forth in column 4, lines 25-67, column 5, lines 1-67; and as best seen Fig.15.

With respect to claim 12, the method steps, as set forth, would have been inherently carried out in the operation of the device, as set forth above.

***Allowable Subject Matter***

Art Unit: 3732

Claims 5-11, 13-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
